• jQuery & Ajax • Javascript • ES6 • Typescript • Json
• Git & GitHub • ReactJS • React Native • MongoDB

Interpersonal Skills:

• Communication • Teamwork • Problem-solving
• Attention to detail • Time management

INTERNSHIPS

Front-end and cross platform mobile development

Mar 2023 – Jul 2023

Information Technology Institue (ITI) 🔗

- Created a dynamic website using React, React-dom, and Material UI for a rich user experience.
- Expanded project scope with a React Native app, designing user-friendly onboarding and shopping cart features.
- Contributed to an Angular 14 dashboard for enhanced project functionality.
- Applied Photoshop and Canva for visually engaging project aesthetics.

PROJECTS

1. Classy Social Media Platform: 🔗

- Spearheaded the creation of an open-source social media platform tailored to meet student needs.
- Leveraged the MERN stack (MongoDB, Express.js, React, Node.js) for robust and scalable performance.
- Revamped the user experience through an intuitive design, anchored by Material-UI.

2. Budget Management Website (React.js): 🔗

- Engineered a React.js-based budget management website, prioritizing seamless user interaction.
- Implemented a user-selectable light/dark mode using the Context API, optimizing user experience and visual preferences..

3. Game WebApp (React) 🔗

- Developed a dynamic React-based gaming web app for enthusiasts.
- Utilized Bootstrap, React Router, and Swiper to craft a responsive interface, integrating features like game trailer viewing and library management for enhanced user interaction.
